Webinar on "Full Stack Web Development using M-E-A-N Technologies":

A webinar was organized by the student chapter(CSI) of the college the webinar was aimed at helping the students gain an overview of the latest technology in the area of web development.

GVPCEW- Computer Society of India conducted a webinar on the topic "Full Stack Web Development using M-E-A-N Technologies" on 23 rd June 2020 by Mr. R. D. D. V. Siva Ram, Assistant Professor, Department of CSE, JNTUK-V.

Resource person: Mr.R.D.V.V.Sivaram

Date of webinar: 23.06.2020

Mr.Sivaram sir introduced the students to M-E-A-N technology and its advantages.

Basically, M-E-A-N stack refers to a collection of JavaScript based technologies used to develop web applications. M-E-A-N is an acronym for MangoDB, ExpressJS, AngularJS and Node. js. From client to server database, M-E-A-N is full stack JavaScript. It helps to build fast, robust and maintainable production web applications.

The webinar was attended by students from the Depts. of CSE and IT. Around 60 students attended the webinar.

Students were able to understand the importance of M-E-A-N technology in web development.
