

GAYATRI VIDYA PARISHAD COLLEGE OF ENGINEERING FOR WOMEN

KOMMADI, MADHURAVADA, VISAKHAPATNAM - 530 048

(APPROVED BY AICTE, NEW DELHI, AFFILIATED TO ANDHRA UNIVERSITY, VISAKHAPATNAM)

(ACCREDITED BY NATIONAL BOARD OF ACCREDITATION [NBA] FOR B.TECH CJE, ECE AND IT - VALID FROM 2019-22 AND 2022-25)

(ACCREDITED BY NATIONAL BOARD OF ACCREDITATION [NBA] FOR B.TECH EEE VALID FROM 2023-24 TO 2025-2026)

(ACCREDITED BY NATIONAL ASSESSMENT AND ACCREDITATION COUNCIL [NAAC] WITH A GRADE- VALID FROM 2022-27)

(Phone: +91-891-2739144, 2739124, 2719125, 2719127 Email Id: gvpcew@gmail.com , info@gvpcew.ac.in)

1.3.1. *Institution integrates cross-cutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability, and Human Values into the curriculum:*

Gayatri Vidya Parishad College of Engineering for Women (GVPCEW) seamlessly integrates cross-cutting issues relevant to Professional Ethics, Gender Sensitivity, Human Values, and Environment & Sustainability into the curriculum, aligning with the institution's vision of holistic development and women empowerment.

Mandatory courses such as Professional Ethics, Universal Human Values, and Constitution of India are incorporated across all programs to instill ethical conduct, social responsibility, and integrity in engineering practice.

Gender sensitivity is promoted in an all-women environment with 100% female students and over 60% women faculty. The Internal Complaints Committee (ICC) conducts awareness programs, Disha app orientations, self-defense training, leadership workshops, entrepreneurship activities, and counseling to foster equality and safety.

Human values are reinforced through the Universal Human Values course, complemented by NSS activities and yoga sessions, nurturing empathy, tolerance, and responsible citizenship.

Environmental consciousness is embedded via courses like Environmental Science, Sustainable Engineering, and Renewable Energy Sources. Initiatives by the EchoTech Club, green chemistry practices, environmental/energy audits, 100 kWp Solar PV system, 100 kW Wind-Solar Hybrid System, rainwater harvesting, and RO plant contribute to a sustainable campus.

These efforts ensure graduates are ethically sound, socially aware, and environmentally responsible professionals.

1.3 - Curriculum Enrichment

1.3.1 - Institution integrates cross-cutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability, and Human Values into the curriculum

S.No.	Title of the Course / Activity	Course Code	Professional Ethics	Gender	Human Values	Environment & Sustainability	Description of the Course
1.	Professional Ethics and Human Values	MC2201 /CS2209	Yes	Yes	Yes	-	<p>-Apply a moral framework to inculcate core human values and support personal transformation into an ethically responsible human being.</p> <p>-Learn and internalize the ethical responsibilities of engineers, understanding their roles and duties in professional practice.</p> <p>-Explain and understand engineering ethics and codes of conduct for developing professionalism and resolving moral as well as ethical dilemmas</p> <p>-Evaluate the responsibility and accountability of professional engineers in design, operation, and safety through risk-benefit analysis, while fostering awareness of Intellectual Property Rights (IPR).</p> <p>-Develop knowledge of global issues and gain awareness of computer ethics, environmental ethics, and ethical concerns in scientific and engineering research.</p>
2.	Constitution of India	MC1201	Yes	Yes	Yes	-	<p>-Enable students to appreciate the importance and relevance of the Constitution.</p> <p>- Develop a clear understanding of the structure and functioning of the executive, legislature, and judiciary.</p> <p>-Understand the philosophy, significance, and implications of fundamental rights and duties.</p> <p>-Gain awareness of the autonomy and roles of key constitutional bodies such as the</p>

						Supreme Court, High Court, Comptroller and Auditor General of India, and the Election Commission of India. -Understand the financial and administrative relationship between the central and state governments.
3.	Intellectual Property Rights	AI2109	Yes	Yes	yes	Yes -Distinguish between different categories of intellectual property and select the appropriate form of protection for creative or research outputs. -Perform searches related to patents and evaluate whether an invention meets the criteria for patentability. - Interpret the layout, terminology, and essential sections found in a typical patent document. - Navigate the procedural steps required for filing, registering, and defending various intellectual property claims. - Understand the fundamental principles of commercializing intellectual property and address the technological, legal, and business-related challenges involved.
4.	Environmental Science	24BC11 MC01	-	-	-	yes - Familiarize students with the fundamental aspects of the environment and environmental management. -Provide knowledge of major international environmental conventions that will support students in their future academic and professional pursuits. -Help students understand the importance of natural resource management for the sustenance of life and society. -Create awareness about the impact of pollution generated through anthropogenic activities on the environment. -Introduce the concepts of Sustainable Development, energy management, and environmental management. -Impart knowledge on new-generation waste issues, including e-waste and plastic waste.
5	Gender	Activity	Yes	yes	yes	- -Workshop on selfdefence. -Seminar on woman empowerment in digital India -Seminar on Gender: Roles andresponsibili -Women's day celebration annually

6	Energy Conservation Week	Activity	Yes	-	Yes	Yes	<p>-The Energy Conservation Week activities sensitized students to sustainability and environmental responsibility through pledges, awareness drives, and hands-on learning experiences.</p> <p>-Students connected classroom concepts with real-world applications by participating in quizzes, model exhibitions, and demonstrations related to renewable energy and energy efficiency.</p> <p>-The initiatives promoted social responsibility by encouraging students to adopt energy-saving habits and spread awareness across the campus community.</p> <p>-Exposure to models on green buildings, water management, solar energy, and efficient transportation helped students understand emerging sustainable technologies.</p> <p>-Faculty-led campaigns, posters, and practical energy-saving strategies reinforced ethical resource usage and strengthened a culture of sustainability within the institution</p>
7	NSS & YOGA	Activity	Yes	Yes	Yes	Yes	<p>Encourages students to participate in community service and develop a sense of social responsibility.</p> <p>Organizes activities such as awareness drives, cleanliness campaigns, and social welfare programs.</p> <p>Helps students build leadership, teamwork, and empathy through service-oriented projects.</p> <p>Promotes physical fitness, flexibility, and overall well-being through structured postures and breathing techniques.</p> <p>Helps reduce stress and improve concentration, emotional balance, and mental clarity.</p> <p>Encourages a healthy lifestyle by integrating body, mind, and inner awareness.</p>
8	Echo-Tech Club	Activity	yes	-	yes	Yes	<p>Plastic Awareness Campaign E waste collection Drive Minor Research Project</p> <p>The Echo-Tech Club is a student-driven community that explores modern technology, creative problem-solving, and innovative digital tools.</p>

S.NO	NAME OF THE ACTIVITY	DATE OF THE EVENT	DESCRIPTION
1.	Energy conservation week	17-12-2024 to 21-12-2024	<p>Promotes awareness about saving energy and using resources efficiently in daily life.</p> <p>Encourages adoption of renewable energy and energy-efficient technologies.</p> <p>Highlights the role of individuals and communities in protecting the environment and reducing climate change.</p>
2.	WOMEN'S DAY CELEBRATIONS	7-04-2025	<p>Recognition & Awareness: creating awareness through seminars and talks on women's rights, gender equality, and digital empowerment.</p> <p>DISHA App Orientation: Introducing the DISHA app, explaining its purpose, and demonstrating features like emergency alerts, location sharing, and helpline support for women's safety.</p> <p>Cultural & Inspirational Programs Celebrating womanhood through cultural performances, motivational speeches, and interactive sessions</p>

			that inspire confidence, unity, and self-reliance among women.
3.	International yoga day	21-06-2025	<p>Health & Well-Being: Yoga helps improve physical fitness, mental peace, flexibility, and overall health.</p> <p>Stress Relief & Mindfulness: Regular yoga practice reduces stress, anxiety, and improves concentration and emotional balance.</p> <p>Healthy Lifestyle Awareness: Yoga Day promotes the importance of adopting yoga as a daily habit for a healthy and disciplined life.</p>
4.	Echo Tech club	Activity	The Echo-Tech Club is a student-driven community that explores modern technology, creative problem-solving, and innovative digital tools.
5.	NSS	Activity	<p>Community Service: NSS activities focus on serving society through cleanliness drives, health camps, awareness programs, and social service.</p> <p>Social Awareness: Creating awareness on issues like health, environment, education, gender equality, and digital literacy among the public.</p> <p>Personality Development: NSS helps students develop leadership qualities, discipline, teamwork, and a sense of social responsibility.</p>

IT2209 PROFESSIONAL ETHICS AND UNIVERSAL HUMAN VALUES

Course Objectives:

- To recognize the moral values that should guide the Engineering profession.
- To resolve moral issues concerning one's profession.
- To develop and exhibit a set of moral beliefs and attitudes that engineers should inculcate.
- To inculcate social values and morality in one's life.
- To develop awareness about Professional/Engineering Ethics and Human Values.

Learning Outcomes:

Students will be able to:

- Apply the conceptual understanding of ethics and values into everyday practice.
- Understand the importance of moral awareness and reasoning in life.
- Acquire professional and moral etiquette that an engineer requires.
- Develop the acumen for self-awareness and self-development.
- Develop cultural tolerance and integrity.
- Tackle real-life challenges with empathy.

SYLLABUS

HUMAN VALUES

Values - Respect - Caring - Sharing - Honesty- Courage - Self confidence - Communal Harmony
Morals - Virtues

PROFESSIONAL VALUES

Integrity - Discipline - Valuing time - Cooperation - Commitment - Code of conduct - Challenges in the workplace

PROFESSIONAL ETHICS

Overview - Engineering ethics - Moral issues - Profession - Models of professional roles - Responsibility

RESPONSIBILITIES AND RIGHTS

Safety and risk - Collegiality and loyalty - Confidentiality - Occupational crime - Human rights - Employee rights - Intellectual property rights

GLOBAL ISSUES

Globalization - Environmental ethics - Computer ethics - Code of ethics - Multinational corporations - Engineers as advisors in Planning and Policy making

Textbook:

1. R.S. Nagarazan. *A Textbook on Professional Ethics and Human Values*. New Age International Publishers. 2006.

Reference Books:

JAWAHARLAL NEHRU TECHNOLOGICAL UNIVERSITY KAKINADA
KAKINADA – 533 003, Andhra Pradesh, India
DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

I Year II Semester		L	T	P	C
		2	0	0	0
CONSTITUTION OF INDIA					

Preamble:

Course Objectives:

- To Enable the student to understand the importance of constitution
- To understand the structure of executive, legislature and judiciary
- To understand philosophy of fundamental rights and duties
- To understand the autonomous nature of constitutional bodies like Supreme Court and high court controller and auditor general of India and election commission of India.
- To understand the central and state relation financial and administrative.

UNIT-I

Introduction to Indian Constitution: Constitution meaning of the term, Indian Constitution - Sources and constitutional history, Features - Citizenship, Preamble, Fundamental Rights and Duties, Directive Principles of State Policy.

Learning outcomes:

After completion of this unit student will

- Understand the concept of Indian constitution
- Apply the knowledge on directive principle of state policy
- Analyze the History, features of Indian constitution
- Evaluate Preamble Fundamental Rights and Duties

UNIT-II

Union Government and its Administration Structure of the Indian Union: Federalism, Centre-State relationship, President: Role, power and position, PM and Council of ministers, Cabinet and Central Secretariat, Lok Sabha, Rajya Sabha, The Supreme Court and High Court: Powers and Functions;

Learning outcomes: -After completion of this unit student will

- Understand the structure of Indian government
- Differentiate between the state and central government
- Explain the role of President and Prime Minister
- Know the Structure of supreme court and High court

UNIT-III

State Government and its Administration Governor - Role and Position - CM and Council of ministers, State Secretariat: Organization, Structure and Functions

Learning outcomes: -After completion of this unit student will

- Understand the structure of state government
- Analyze the role Governor and Chief Minister
- Explain the role of state Secretariat
- Differentiate between structure and functions of state secretariat

JAWAHARLAL NEHRU TECHNOLOGICAL UNIVERSITY KAKINADA
KAKINADA – 533 003, Andhra Pradesh, India
DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

UNIT-IV

A. Local Administration - District's Administration Head - Role and Importance, Municipalities - Mayor and role of Elected Representative - CEO of Municipal Corporation Pachayati Raj: Functions PRI: Zila Panchayat, Elected officials and their roles, CEO Zila Panchayat: Block level Organizational Hierarchy - (Different departments), Village level - Role of Elected and Appointed officials - Importance of grass root democracy

Learning outcomes: -After completion of this unit student will

- Understand the local Administration
- Compare and contrast district administration role and importance
- Analyze the role of Myer and elected representatives of Municipalities
- Evaluate Zilla panchayat block level organization

UNIT-V

Election Commission: Election Commission- Role of Chief Election Commissioner and Election Commissionerate State Election Commission, Functions of Commissions for the welfare of SC/ST/OBC and women

Learning outcomes: -After completion of this unit student will

- Know the role of Election Commission apply knowledge
- Contrast and compare the role of Chief Election commissioner and Commissionerate
- Analyze role of state election commission
- Evaluate various commissions of viz SC/ST/OBC and women

AI2109 INTELLECTUAL PROPERTY RIGHTS

Course Objective:

- To introduce the students to Intellectual Property Rights (IPR) which is a key component in modern knowledge management processes
- To create consciousness on IPR in students at an early stage of their education so that they develop an appreciation for ethical and rightful use of existing knowledge
- To make them understand how to take ownership of knowledge they may develop as a result of their creative innovations, take ownership and either drive themselves in becoming entrepreneurs or become responsible knowledge users in society
- To expose students some of the recent debates on the societal implications of IPR and its role in national/international trade and socio-economic development.

Course outcome:

Learners will be able to

- identify the types of intellectual property protection available for their research outcome
- conduct patent search and analyse patentability of the invention
- understand the basic structure of Patent document
- understand the registration and prosecution of different IPs
- understand the basics of IP commercialization and techno/commercial/legal issues in IPR commercialization

SYLLABUS

1. **Introduction:** Concept of property, Intellectual Property (IP) and Intellectual Property Rights (IPR), Importance of IP, Value creation through IP, Advantages of IP protection, Competitive advantage, Promotion of social good, Prevention of duplicates, counterfeit products and IP.
2. **Evolution of IP system:** Historical view of IP system in India and abroad, Legal basis and rationale behind development of IP system, WTO and TRIPS agreement, Role of WIPO.
3. **Types of IPR:** Major forms of IP in India and globally, Acts enacted in India related to IP.
4. **Patent:** Concept, Life of patent, Rights of Patentee, Criteria of patentability- novelty, non-obviousness, and utility, Non-patentable inventions.
5. **Patent filing and prosecution:** Prior art search, Process of obtaining a patent in India, Provisional and complete specification, Convention application, Patent Cooperation Treaty (PCT), Patent Infringement and Enforcement.
6. **Trademark:** Types of trademarks, Trademark and Brand, Trademark Registration, Trademark Infringement.
7. **Copyright:** Copyrights and related rights, Copyright registration, Copyright infringement, Section 52 of Indian Copyright Act.
8. **Industrial Design:** What is Industrial design, Design registration, Design infringement.
9. **Trade Secret:** What are Trade Secrets, How trade secrets are maintained in trade and business.
10. **Other forms of IP:** Semiconductor Integrated Circuits Layout Design, Geographical Indications, Protection of Plant Varieties & Farmers' right, Traditional knowledge.
11. **IP commercialization:** Licensing & Royalty; Technology Transfer; IP assignment, Compulsory License.
12. **Emerging areas:** Pat informatics, IP and bank loan, IP insurance, IP audit, IP valuation, IP management, Use of artificial intelligence in IP enforcement, Open innovation.

ENVIRONMENTAL SCIENCE

II Year B. Tech I Semester (Common to CSE & IT)

Course Objectives

The objectives of the Environmental Science course are to

- Familiarize the fundamental aspects of environment and the environmental management
- Provide information of some of the important international conventions which will be useful during the future endeavors after graduation.
- Make realize the importance of natural resources management for the sustenance of the life and the society.
- Apprise the impact of pollution getting generated through the anthropogenic activities on the environment
- Provide the concept of Sustainable Development, energy and environmental management
- Impart knowledge on the new generation waste like e-waste and plastic waste

Course Outcomes: At the end of the course the student will be able to

CO1: Understand the impacts of developmental activities and mitigation measures for sustainable environment.

CO2: Categorize the importance of natural resources management for the sustenance of the life and the society.

CO3: Differentiate various forms of pollutions and their impact on the environment

CO4: Discuss elements of Sustainable Development, energy and environmental management.

CO5: Understand technologies on the basis of ecological principles and environmental regulations which in turn helps in sustainable development

Unit I

Introduction: Structure and functions of Ecosystems-Ecosystems and its Dynamics-Value of Biodiversity-impact of loss of biodiversity, Conservation of bio-diversity. Environmental indicators - Global environmental issues and their impact on the ecosystems. Salient features of international conventions on Environment: Montreal Protocol, Kyoto protocol, Ramsar Convention on Wetlands, Stockholm Convention on Persistent Organic Pollutants, United Nations Framework Convention on Climate Change (UNFCCC)

Unit II

Natural Resources Management: Importance of natural resources management-Land as resource, Land degradation, Soil erosion and desertification, Effects of usage of fertilizer, herbicides and pesticide- watershed management.**Forest resources:** Use and over-exploitation, Mining and dams – their effects on forest ecosystems and

the living beings. **Water resources:** Exploitation of surface and groundwater, Floods, droughts, Dams: benefits and costs. **Mineral Resources:** Impact of mining on the environment and possible environmental management options in mining and processing of the minerals. Sustainable resource management (land, water, and energy), and resilient design under the changing environment.

Unit III

Environmental Pollution: Local and Global Issues. Causes, effects and control measures. Engineering aspects of environmental pollution control systems. Air pollution: impacts of ambient and indoor air pollution on human health. Water pollution: impacts water pollution on human health and loss of fresh water resources. Soil pollution and its impact on environment, Marine pollution and its impact on blue economy. Noise pollution. Air (prevention and control of pollution) Act, Water (prevention and control of pollution) Act and their amendments. Salient features of Environmental protection Act, 1986. Pollution control technologies: Wastewater Treatment methods: Primary, secondary and Tertiary.

Unit IV

Sustainable Development: Population and its explosion Fundamentals of Sustainable Development– Sustainability Strategies and Barriers – Industrialization and sustainable development. Circular economy concepts in waste (solid and fluid) management. **Energy and Environment:** Environmental Benefits and challenges, Availability and need of conventional energy resources, major environmental problems related to the conventional energy resources, future possibilities of energy need and availability. **Renewable Energy:** Production of Hydrogen via Water Splitting Using Photocatalytic and Photoelectrocatalytic Route process of photovoltaic energy conversion, solar energy conversion technologies and devices, their principles, working and applications, disposal of solar panel after their usage. **Biomass energy:** Concept of biomass energy utilization, types of biomass energy, conversion processes, Wind Energy, energy conversion technologies, their principles, equipment and suitability in context of India.

Unit V

Solid waste management: Important elements in solid waste management- Waste to energy concepts. **Management of plastic waste and E-waste:** Sources, generation and characteristics of various e- and plastic wastes generated from various industrial and commercial activities; Waste management practices including onsite handling, storage, collection and transfer. E-waste and plastic waste processing alternatives. E-Waste management rules and Plastic waste management rules, 2016 and their subsequent amendments.

Text Books:

GAYATRI VIDYA PARISHAD COLLEGE OF ENGINEERING FOR WOMEN (Autonomous)

Madhurawada: Visakhapatnam – 530048

(Approved by AICTE, New Delhi and Affiliated to Andhra University, Visakhapatnam)

(Accredited by NBA for B. Tech-CSE, ECE, IT and EEE)

Accredited by NAAC with A Grade from 2022-2023 to 2027-2028

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

REPORT

Event: Energy Conservation Week

Date: 17-12-2024 to 21-12-2024

In view of **Energy Conservation Week**, Department of EEE of **GVP College of Engineering for Women (A)**, has conducted activities from **17th December to 21th December 2024**. Led by **Dr. M. Krishna**, the program witnessed active participation from **53 second-year students**, who gained valuable insights and hands-on experience through the initiative.

Energy efficiency plays a pivotal role in the sustainable development of a nation. This dedication to sustainability in India is commemorated as the National Energy Conservation Day, marked annually on December 14. The day reminds us all about the shared responsibility of adopting sustainable energy practices. By using energy more efficiently, we can create economic stability and encourage technological innovation. Ultimately, energy conservation contributes to a cleaner, healthier, and more sustainable future. Promoting awareness of energy efficiency and conservation is critical for reducing environmental impact, saving costs, and contributing to sustainable development.

Energy Conservation Week aims to raise awareness about the critical need to conserve energy and promote sustainable practices. It focuses on educating individuals, communities, and organizations about the environmental and economic impacts of energy consumption while highlighting the benefits of energy efficiency. The week encourages people to adopt energy-saving habits such as turning off unused appliances, using energy-efficient devices, and reducing wasteful practices. Additionally, the week showcases advancements in renewable energy technologies and fosters community participation through various events, workshops, and campaigns. By uniting efforts toward reducing energy consumption and carbon emissions, Energy Conservation Week supports global sustainability goals and contributes to a greener, healthier planet.

The five-day program comprehensively covered various aspects of energy conservation, ensuring a thorough learning experience for participants.

Day 1: 17th December 2024

Powering a Sustainable Future: Energy Conservation Pledge

All the second-year students visited every classroom to take an energy conservation pledge. The program began with a focus on promoting the use of renewable energy sources such as solar, wind, and hydro power. Additionally, students were provided with practical tips on utilizing energy-efficient appliances and lighting to contribute to a sustainable future.

Day 2: 18th December 2024

Awareness Quiz

A quiz was conducted to enhance awareness about energy basics, conservation methods, efficiency technologies, environmental impacts, and energy policies. The quiz served as a foundation to educate participants about sustainable practices and encourage energy-conscious behaviour.

Day 3: 19th December 2024

Save Energy for a Secure Tomorrow: A Call for Public Awareness

Students were encouraged to take active roles in promoting energy conservation within their campus. By adopting conscious daily habits, participants explored ways to reduce energy consumption and lower their carbon footprint, contributing to a sustainable future.

Day 4: 20th December 2024

Sustainable Solutions: Energy Conservation Model Exhibition

Participants showcased innovative models highlighting sustainable solutions for energy conservation.

Key topics included:

- **Green Building:** Designs focusing on energy efficiency, water conservation, and eco-friendly materials.
- **Water Management:** Rainwater harvesting systems for reducing groundwater dependency.
- **Wastewater Purification:** Technologies ensuring treated water safety and reuse.
- **Star Ratings on Electrical Appliances:** Promoting energy-efficient appliance selection.
- **Energy Efficiency in Transportation:** Efficient vehicle technologies like electric and hybrid models.
- **Solar Energy:** Harnessing solar power as a clean and sustainable energy source.

Day 5: 21st December 2024

Leading the Change: Energy Conservation Strategies for Educators

The program concluded with strategies for educators to promote energy conservation awareness. Activities included:

- Organizing campaigns, rallies, and events.
- Distributing energy-saving tips, brochures, and posters.
- Sharing actionable advice:
 1. Turn off lights, electronics, and equipment when not in use.
 2. Use energy-efficient lighting.
 3. Adjust thermostat settings.
 4. Use power strips to minimize energy wastage.

MODEL TOPICS:

1.GREEN BUILDING: A green building, also known as a sustainable or eco-friendly building, is designed, built, and operated to minimize its negative impact on the environment while maximizing the use of natural resources. These buildings focus on energy efficiency, water conservation, and the use of eco-friendly materials, all while ensuring a healthy indoor environment for occupants. The concept of green building is rooted in the idea of reducing our carbon footprint. This means using renewable energy sources like solar panels, ensuring proper insulation to reduce energy waste, and incorporating natural ventilation and lighting.

2.WATER MANAGEMENT: Rainwater harvesting is the collection and storage of rain, rather than allowing it to run off. Rainwater is collected from a roof-like surface and redirected to a tank, cistern, deep pit, aquifer, or a reservoir with percolation, so that it seeps down and restores the ground water. Rainwater Harvesting is one of the most commonly used methods to save water. It reduces soil erosion, stormwater runoff, flooding, and pollution of surface water with fertilizers, metals and other sediments. The implementation of rainwater harvesting system is an important step towards reducing the dependence on groundwater and other sources of water. The project activities, budget, and timelines have been carefully planned to ensure that the system is installed efficiently and effectively.

3.WASTE WATER PURIFICATION: A critical issue we face today is water pollution. As urban areas expand and industrial activities increase, the need for effective wastewater purification becomes more urgent than ever. The essential process involved in wastewater purification, which not only protect our water resources but also contribute to public health and environmental sustainability. The technologies used to ensure that treated water is safe for discharge or reuse.

4.STAR RATING ON ELECTRICAL APPLIANCES: Star rating to the electrical appliances can be given by the way they performance and their efficiency is. These star ratings are given to the appliances of energy efficiency. They calculate and evaluate how better the electrical appliances can save the energy. These star ratings help consumers choose products that are more energy-efficient, which can reduce electricity consumption and lower utility bills. Appliances are given a star rating based on how much energy they consume. More stars mean higher efficiency. The star system allows consumers to compare different models of the same type of appliance to see which one will be more energy-efficient. These energy-efficiency is determined by BEE in India.

5.ENERGY EFFICIENCY OF TRANSPORTATION: In today's world, transportation is not just about getting from one place to another. It's about how efficiently we do it. Vehicle efficiency refers to how well a vehicle uses energy to perform its task, whether it runs on petrol, electricity, compressed natural gas, hydrogen, or a combination of these. Vehicle efficiency is crucial because it affects Environmental impact, Cost-Effectiveness, Energy Conservation, Long-Term Sustainability. Petrol vehicles are of high power and speed. Moderate fuel efficiency. Electric vehicles are best for urban driving due to regenerative braking in stop-and-go traffic. Hybrid vehicles will Combines an internal combustion engine and an electric motor for smooth performance.

6.SOLAR ENERGY: Electrical energy is often considered the backbone of modern civilization, powering everything from homes and industries to transportation systems and communication networks. Electric energy enables technological innovation, enhances productivity, and drives economic growth. Solar energy is generated from the sun's rays either through solar thermal systems. The world is facing an unprecedented energy crisis. With the increasing demand for energy and the depletion of fossil fuels, it has become imperative to explore alternative sources is solar energy, which has emerged as a clean, renewable, and sustainable energy source.

The Energy Conservation Week provided a platform for participants to gain hands-on experience and deepen their understanding of energy conservation. The models, discussions, and activities emphasized the significance of individual and collective efforts in building a sustainable future. By fostering awareness and practical applications, the program empowered students to become advocates for energy efficiency and environmental sustainability.

GAYATRI VIDYA PARISHAD COLLEGE OF ENGINEERING FOR WOMEN (Autonomous)

Madhurawada :: Visakhapatnam – 530048

(Approved by AICTE, New Delhi and Affiliated to Andhra University, Visakhapatnam)

(Accredited by NBA for B.Tech-CSE, ECE, IT and EEE)

Accredited by NAAC with A Grade from 2022-2023 to 2027-2028

Event Report Topic on : Womens's day -2025 Motivational speech on personal safety and social responsibility

Date&Time: March 7th, 2025 & 12:00 AM to 12.30 AM

Venue: GVPCEW(A), Room no: 202

On 7th March, as part of our International Women's Day celebrations, the PM Palem Sub-Inspector (Sunita garu) visited our college to inspire and motivate our students. During her session, she provided valuable insights on personal safety and social responsibility.

She emphasized the importance of:

- **Avoiding unnecessary contact with unfamiliar individuals.**
- **Not confiding in or relying solely on casual acquaintances.**
- **Being independent, confident, and self-reliant in all aspects of life.**

The SI Sunita garu encouraged students to maintain strong family support, be courageous in facing societal challenges, and use resources like the Disha App or contact Dial 114 or 112 for immediate police assistance when needed.

She advised students to stay focused on their studies, set clear goals, and strive for success in their chosen fields. Her motivational talk aimed to guide students toward social responsibility and personal well-being. For women's safety, the following emergency helpline numbers are available for immediate assistance in India she reminded once again

- **Disha App – A dedicated app for women's safety in Andhra Pradesh.**
- **Dial 112 – Emergency Response Support System (ERSS) for immediate police assistance.**
- **Dial 114 – Women's safety helpline in Andhra Pradesh.**
- **Dial 1091 – National helpline for women in distress.**

The event was coordinated by Dr. B. Vijaya Lakshmi, along with a few other lady faculty members and non teaching staff and was attended students from different branches like CSE, ECE, CCM and IT Approximately 100+ students from various branches attended the session, which was held in Room Number 202.

On behalf of GVP College of Engineering, Dr. B. Vijaya Lakshmi expressed heartfelt gratitude to the PM Palem Sub-Inspector for her inspiring talk and valuable guidance. She also delivered the vote of thanks, appreciating the officer's time and efforts in empowering the students.

On 20th June 2025 and 21st June 2025, Gayatri Vidya Parishad College of Engineering for Women celebrated **International Yoga Day 2025** by hosting two yoga sessions. The first session was held on the 20th of June, followed by another early morning session on 21st June 2025, starting at 6:30 AM. Both sessions were conducted under the able supervision of the **Principal, Dr. R.K. Goswami**, and the **Vice-Principal, Sudheer Garu**, ensuring smooth coordination and guidance. The sessions witnessed the active participation of the **Secretary, Dr. P. Somaraju Garu**, who joined the participants and added immense joy and enthusiasm to the event. The campus was filled with energy as students and faculty members came together to embrace yoga's health benefits, making the event a memorable celebration of wellness and unity.

Report on National Youth Day 2025: **NSS and Youth Unite in Celebration of Swami Vivekananda's Legacy in Vizag**

"Strength is life, weakness is death."

No. of Volunteers Involved: 34

12-02-2025

The Ramakrishna Mission Ashrama in Visakhapatnam conducted a grand "Vivekananda Shobha Yatra" on February 7, 2025, in celebration of National Youth Day. The event drew over 5,000 students from 35 degree and PG colleges, 10 engineering institutions, and various schools. The rally began at the Government Women's Degree College, Daba Gardens, and was flagged off by key dignitaries including the Vice-Chancellor of DSNLU and the District Collector. Students marched energetically with placards and dressed as Swami Vivekananda and Bharata Mata, spreading his timeless message of youth empowerment and national pride.

The procession passed through major areas, including the Central Revenue Staff Quarters, where it was joined by Customs and GST officials, IRS officers, and the Divisional Railway Manager, showcasing strong public and official support. The rally concluded at the Ashrama campus, where students were gifted a copy of Positive Thinking, a compilation of Swami Vivekananda's messages, and were served prasad. The event was planned in coordination with NSS and NCC officers and was widely covered by the media. The Shobha Yatra was appreciated for its organization, spirited participation, and for effectively promoting the values of Swami Vivekananda among the youth.

Report on Raising Awareness on Drug Abuse: Combating the Growing Threat of Drug Abuse Among Youth

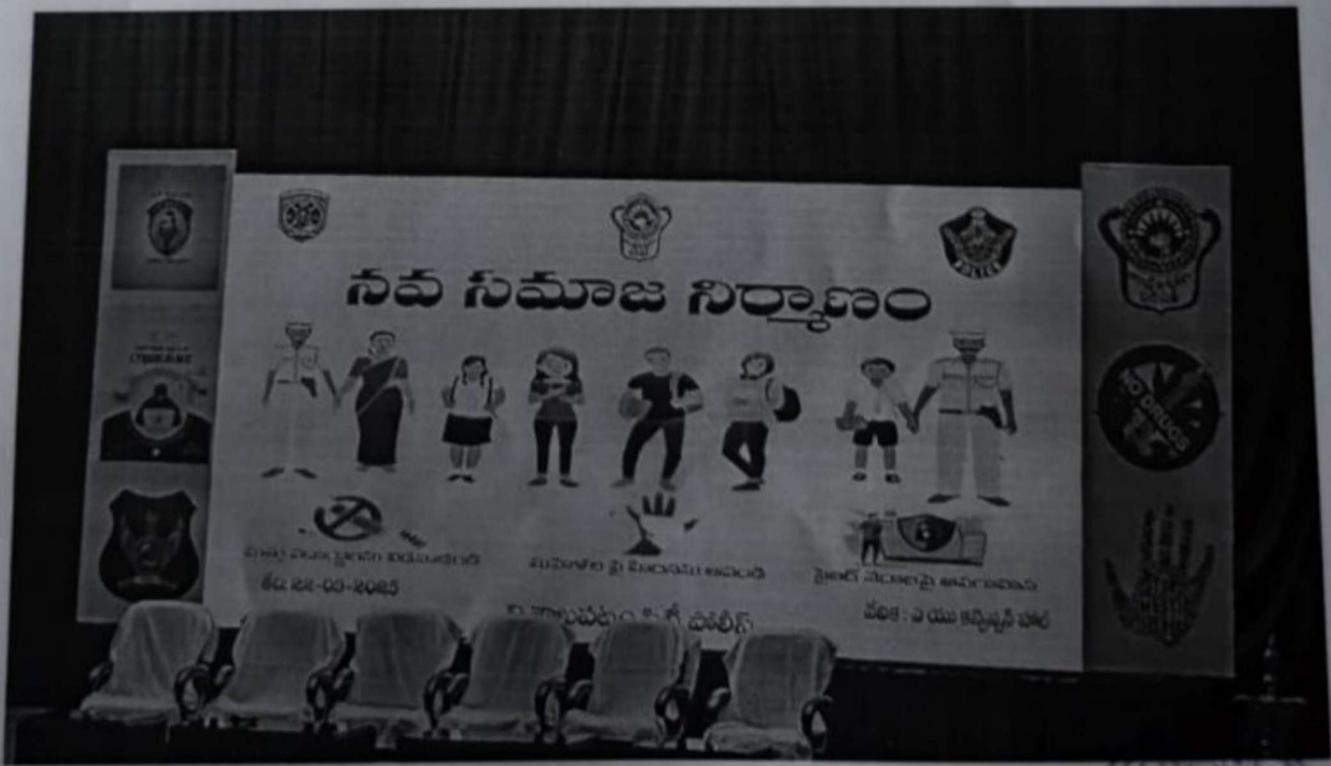

"Drug Abuse Destroys - Awareness Saves"

No. of Volunteers Involved: 5

22-03-2025

No. of Students Involved: 40

Drug abuse is a serious issue that affects individuals, families, and communities. It refers to the harmful or excessive use of drugs, including alcohol, prescription medications, and illegal substances. Drug abuse can lead to physical and mental health problems, addiction, poor academic or job performance, and strained relationships. It often begins with curiosity or peer pressure, especially among young people. Raising awareness, providing support, and encouraging healthy lifestyle choices are key to prevention. Rehabilitation and counseling can help those affected recover and rebuild their lives. Combating drug abuse requires a united effort from families, schools, and society.

Accredited by NAAC with grade 'A' from 2022 to 2027

On 22 March 2025, Visakhapatnam City Police, under the leadership of Commissioner **Shankhabrata Bagchi**, launched the pioneering **Nava Samaja Nirmanam** programme—the first of its kind in Andhra Pradesh—targeting youth engagement and social awareness. The initiative brought together over **2,000 students**, including members of Andhra University such as the Vice-Chancellor, to confront pressing issues like drug abuse, cybercrime, and violence against women. Through interactive sessions, the programme provided practical guidance on identifying, responding to, and reporting these challenges. It also featured an essay-writing competition, rewarding students whose written pieces demonstrated depth in understanding and advocacy. By blending awareness with actionable strategies, **Nava Samaja Nirmanam** positioned students as informed guardians of community safety. This comprehensive approach not only fostered civic responsibility but also strengthened police–student partnerships, setting the stage for future outreach efforts aimed at nurturing a safer, more aware generation in Visakhapatnam.

Report on Daan Utsav : Clothes Donation Drive by NSS Volunteers of GVP Women's Engineering College Brightens Lives of Children

"Giving is the greatest act of grace"

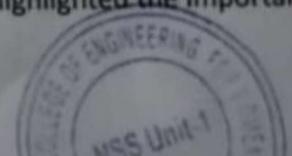

No. of Volunteers Involved: 5

07-04-2025

Daan Utsav is an initiative focused on the act of giving and sharing with those in need. On 7th April 2025, the NSS volunteers of Gayatri Vidya Parishad College of Engineering for Women organized a donation drive where they collected and distributed clothes and other essentials to underprivileged children. Additionally, the volunteers extended their support to **Aruku Kasipatnam Chinnamma**, a dedicated teacher who has significantly contributed to the community. This event was a meaningful expression of compassion and service, aimed at uplifting the lives of children and honoring the commitment of a valued educator.

During Daa Utsav, volunteers engaged in various activities aimed at spreading awareness and celebrating the spirit of giving and service. The event fostered community participation and reflected the college's dedication to nurturing socially responsible students. The recognition of Aruku Kasipatnam Chinnamma highlighted the importance of educators in shaping lives and inspiring social change.

Report on HPV Vaccine Awareness Campaign: A Collaborative Initiative to raise awareness and promote protection through the HPV vaccine.

"United for a healthier tomorrow"

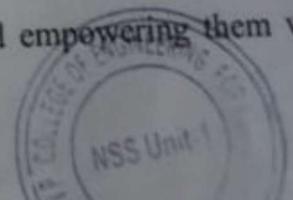

No. of Students Involved: 208

02-05-2025

Human Papillomavirus (HPV) is a common viral infection with the potential to cause cervical, anal, oropharyngeal, and other cancers. Despite the availability of a safe and effective vaccine, misinformation and lack of awareness contribute to low vaccination rates in many regions. To combat this, a multi-stakeholder awareness campaign was designed and implemented.

The HPV Vaccine Awareness Campaign was conducted on 2nd May 2025 by students of GVP Medical College as part of a public health outreach initiative. The event took place at Gayatri Vidya Parishad College of Engineering for Women, where medical students engaged with engineering students through informative sessions, interactive discussions, and educational materials. The campaign aimed to raise awareness about the risks associated with Human Papillomavirus (HPV) and the importance of early vaccination in preventing cervical and other HPV-related cancers. The initiative fostered a collaborative environment, encouraging young women to make informed health decisions and empowering them with accurate, science-based information about the HPV vaccine.
