GUEST LECTURE REPORT

Event: Talk on Career Opportunities through GATE and semiconductor value chain.

Date: 06-12-2024

Guest: Mr. S Mani Mohan Trinath, ACE Engineering Academy

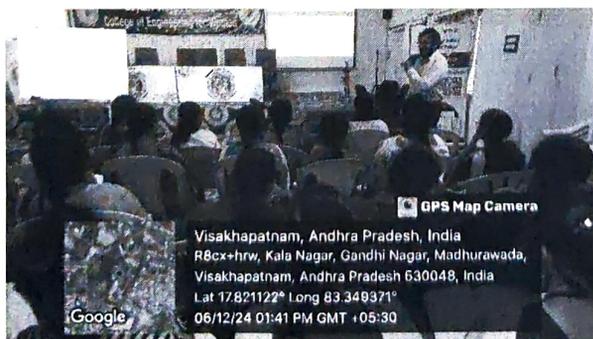

The Department of Electrical and Electronics Engineering (EEE) organized a guest lecture by **Mr. S Mani Mohan Trinath**, an esteemed faculty member from **ACE Engineering Academy**, on the importance of the **GATE exam** and its role in shaping careers in engineering and technology. With a master's degree in Electronics from Andhra University and a postgraduate degree in Artificial Intelligence & Machine Learning from the University of Texas at Austin, Mr. Trinath provided valuable insights into higher education opportunities, the semiconductor industry, and career paths.

Mr. Trinath began by introducing the GATE exam, explaining its structure, eligibility criteria, and significance in pursuing postgraduate studies at prestigious institutions such as IITs, IISc, and NITs. He emphasized how the GATE score is a gateway for higher education and recruitment in PSUs. He further highlighted alternate exams like UGC-NET and CSIR-NET for students aspiring for research and academic careers. He elaborated on top IITs like IIT Bombay, IIT Delhi, and IIT Madras, which offer advanced specializations in fields like robotics, VLSI, and embedded systems.

The lecture transitioned into a discussion on the semiconductor value chain, including IC design, wafer fabrication, and end-product integration. Mr. Trinath outlined the stages of IC fabrication and their impact on sectors such as AI, automotive, and telecommunications. He also shed light on the market size and key players in each part of the value chain, mentioning global AI companies like NVIDIA, Intel, Apple, and Qualcomm. He then discussed the role of Indian companies such as INOX CVA, KAYNES, and HCL in areas like pre-silicon validation, wafer thinning, and packaging. He provided a breakdown of contributions from entities like the Adani Group in wafer fabrication and the Hiranandani Group in testing and assembly.

Concluding the session, Mr. Trinath spoke about the classifications of PSUs as MAHARATNA, NAVARATNA, and MINIRATNA, their financial autonomy, and their contribution to industrial growth. He explained basic design concepts like VI characteristics, which form the foundation of semiconductor and circuit analysis.

The students engaged actively in the Q&A session, finding the talk insightful and motivational. Mr. Trinath's guidance left the attendees with a better understanding of how to align their academic efforts with career aspirations in core engineering and emerging technologies.

Guest: SITARAMA PENUMETSA

General Manager, Candela Technologies India Pvt Ltd

Chief Technology Officer, Candela Technologies Inc...USA.

On Wednesday, November 20, 2024, at 10:00 AM, the Department of Electrical and Electronics Engineering (EEE) at GVPCEW(A) celebrated the “**Decennial Ceremony and Inaugural Function of TESLA**”, the department's Student Association. This event marked the beginning of the academic year (2024-25) and brought together faculty, students, and staff to commemorate this milestone.

The Principal, Dr. R K Goswami along with Dr. R.V.S Lakshmi Kumari, Head of the Department, President, Secretary and the Guest, initiated the event by lighting the lamp.

The session commenced with a prayer song performed by the students. Subsequently, Tesla Secretary of previous academic year has shared the overview of the Tesla activities conducted throughout the academic year 2023-24, listing all the events and initiatives undertaken.

The current academic year Tesla President delivered a speech expressing her eagerness to be part of the Tesla Association. She shared her innovative ideas and outlined various activities she wishes to see implemented in the future.

The Head of the Department also addressed the gathering and mentioned the significance of TESLA as a valuable platform for students in

the branch to showcase their abilities and enhance their knowledge. She spoke briefly about the achievements of the previous year's students, extending congratulations to those who secured placements in top multinational companies. Madam expressed pride in being a part of the association and commended the accomplishments of the previous year. She encouraged active participation in group activities, emphasizing that each participant would Savor the academic aspects of all programs and gain heightened confidence levels. Wishing the program to be a grand success.

Dr. R. K Goswami expressed his views about the institution, stating that it is a privilege to be part of TESLA—an organization that facilitates students' holistic development. The institution's objective is to foster oriented and technically skilled students. Through TESLA, students can acquire knowledge, skills, and experience in communication, problem-solving, presentation, and the art of public speaking. Therefore, he encouraged students to actively participate in all activities and develop their skills.

The chief guest, **Sri Sitarama Penumetsa**, Chief Technical Officer of Candela Technologies Pvt. Ltd. a globally renowned company specializing in the computer networking and wireless communications domain, with over 200 customers across more than 20 countries. He is also the Founder and General Manager of Candela Technologies Pvt. Ltd., India a company that is creating valuable opportunities for young engineers right here in Visakhapatnam.

Born and raised in Visakhapatnam, Mr. Sitaram's journey is nothing short of remarkable. After completing his BS in Electrical Engineering from Andhra University in 1999, he embarked on a life-changing journey to the United States to pursue a MS in Electrical and Computer Engineering at the University of Florida, USA, in 2002. His journey from being a passionate student of wireless communications to becoming a technology pioneer is truly inspirational.

In the early stages of his career, Mr. Sitaram worked in research labs and startups, including Veri Wave, where he played a pivotal role in designing and launching groundbreaking WiFi products. Over the years, he rose through the ranks, excelling in diverse roles such as software developer, product manager, director, and business manager, eventually becoming a global business leader. His expertise in wireless communication has

significantly contributed to the advancement of technologies that connect millions around the world.

Driven by his entrepreneurial spirit, Mr. Sitaram joined Candela Technologies and, after spending 20 years in the United States, returned to India in 2020. With a vision to establish a high-tech engineering platform in his hometown, he founded Candela Technologies in Visakhapatnam India. Starting with a modest team, the company now employs over 65 talented professionals and continues to grow.

Mr. Sitaram not only imparted insights into his college experience but also encouraged students to pursue paths leading to innovation that promotes sustainable development and the progressive advancement of technology, despite encountering failures. Following this, he distributed badges to the new TESLA members, marking the formation of the new governing members for the TESLA association for the academic year 2023-24 and distributed Prizes to all the winners of activities conducted during academic year. Mr. Sitaram proceeded to continue the event by delivering a lecture on "**Entrepreneurship and Career Success: Navigating the path to growth and Achievements**".

The session ended by winding up the lecture and with a vote of thanks.

LECTURE:

With extensive experience in Software development, Mr. Sitaram has explained the essence of entrepreneurship and professional development, emphasizing the transformative journey from ambition to achievement.

- **Igniting Vision** symbolizes the moment of inspiration and creativity that sparks an idea or career goal. It highlights the importance of clarity in purpose and the ability to identify opportunities that align with one's passions and strengths. A strong vision sets the foundation for innovation, whether in launching a business or advancing professionally.
- **Empowering Growth** focuses on the process of building and evolving. Entrepreneurs grow by creating impactful solutions and scaling their ventures, while professionals enhance their skills and expertise to climb the career ladder. Growth also involves overcoming obstacles, adapting to change, and fostering collaboration. It

underscores the power of continuous learning, resilience, and cultivating meaningful relationships.

- **Shaping a Legacy of Excellence** speaks to the long-term impact of one's efforts. Success is not only about personal achievements but also about leaving a mark—whether through a thriving business, groundbreaking innovations, or inspiring leadership in a career. Excellence is built on integrity, perseverance, and the desire to create something of value for society.

Together, these elements portray a journey that combines purpose, persistence, and impact. They inspire individuals to pursue their dreams, navigate challenges, and contribute meaningfully to their fields. Whether you aim to build a business, grow a career, or both, this mindset will help unlock potential and drive success while leaving a lasting legacy.

The lecture concluded with a question-and-answer session, during which students posed questions related to the covered topic, and Mr. Sitaram provided clear and concise answers.

Report on Guest Lecture

Event: GUEST LECTURE on Opportunities and Challenges in Overseas Education

Date: 11-03-2025

Guest: Ms. Abhilasha

A Consultant at Edmium Overseas Educational Consultancy, Bhimavaram.

The Department of Electrical and Electronics Engineering (EEE) organized a session by “**Edmium Overseas Educational Consultancy**” for 3rd-year students. The session was delivered by Ms. Abhilasha from Edmium Overseas Consultancy. The session focused on various opportunities available to students after graduation. The consultancy, known for its 13 years of experience in the field, provided insights into international education, job prospects, and immigration pathways.

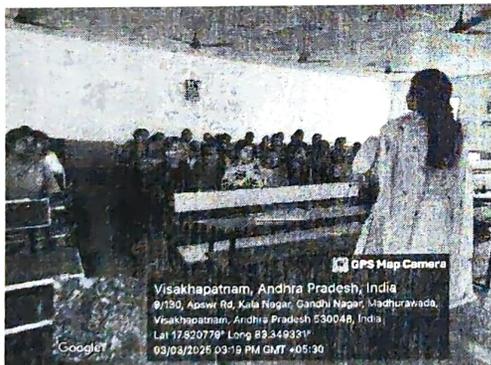

She began the session explaining about how to pursue Master’s in reputational foreign universities after graduation. For those who fear that foreign studies are expensive, this will be the best platform to achieve their Master’s at affordable range. She emphasized the benefits of pursuing a Master’s degree. Being an interactive session students also started to ask their doubts on this. They also offer opportunities in different domains irrespective of their core branch.

She showed a presentation of some of the top destinations for higher education, each offering unique advantages. She also highlighted key destinations like the USA, UK, Canada, Australia, and Germany, emphasizing factors to consider when choosing a university. The United States stands out for its research-driven universities, providing students with access to cutting-edge facilities and diverse programs in business, and humanities. For those looking for an affordable yet high-quality education, Canada is an excellent choice, offering lower tuition fees, opportunities to work during studies, and a straightforward pathway to permanent residency.

The United Kingdom, known for its prestigious institutions, attracts students with its shorter degree durations, allowing them to graduate faster and enter the job market sooner. Similarly, Australia has gained popularity due to its work-friendly policies, making it easier for students to gain employment after completing their studies. Lastly, for those interested in technical and engineering fields, Germany provides a fantastic opportunity with its tuition-free or low-cost education in public universities, ensuring world-class learning without the burden of high expenses.

She also detailed that in order to make students excel in the IELTS, TOEFL and PTE exams, Edmium Overseas Education Consultancy provides mock tests and personalized coaching, ensuring thorough preparation. Special emphasis is placed on speaking and writing practice, helping students improve their fluency and academic writing skills to achieve their target scores.

In conclusion, Ms. Abhilasha ended the session reassuring students that placements and job opportunities abroad are achievable with proper planning. Edmium Overseas Education Consultancy provides guidance on job applications, networking, and resume preparation to help students succeed in international job markets.

GUEST LECTURE REPORT

Event: Talk on Career Opportunities through GATE and semiconductor value chain.

Date: 06-12-2024

Guest: Mr. S Mani Mohan Trinath, ACE Engineering Academy

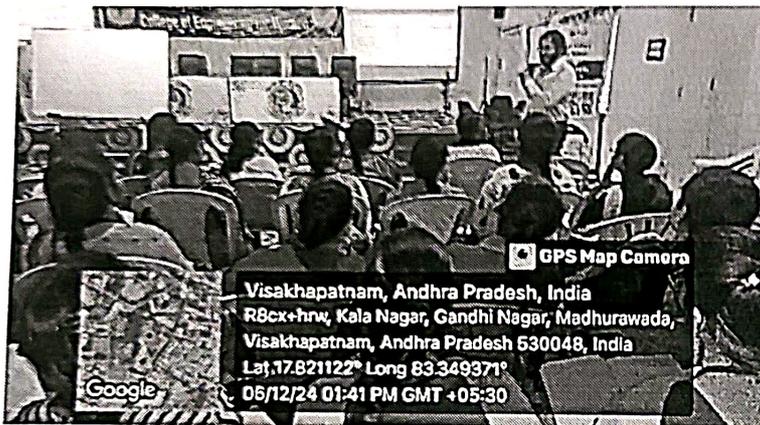

The Department of Electronics and Communication Engineering (ECE) organized a guest lecture by **Mr. S Mani Mohan Trinath**, an esteemed faculty member from **ACE Engineering Academy**, on the importance of the **GATE exam** and its role in shaping careers in engineering and technology. With a master's degree in Electronics from Andhra University and a postgraduate degree in Artificial Intelligence & Machine Learning from the University of Texas at Austin, Mr. Trinath provided valuable insights into higher education opportunities, the semiconductor industry, and career paths.

Mr. Trinath began by introducing the GATE exam, explaining its structure, eligibility criteria, and significance in pursuing postgraduate studies at prestigious institutions such as IITs, IISc, and NITs. He emphasized how the GATE score is a gateway for higher education and recruitment in PSUs. He further highlighted alternate exams like UGC-NET and CSIR-NET for students aspiring for research and academic careers. He elaborated on top IITs like IIT Bombay, IIT Delhi, and IIT Madras, which offer advanced specializations in fields like robotics, VLSI, and embedded systems.

The lecture transitioned into a discussion on the semiconductor value chain, including IC design, wafer fabrication, and end-product integration. Mr. Trinath outlined the stages of IC fabrication and their impact on sectors such as AI, automotive, and telecommunications. He also shed light on the market size and key players in each part of the value chain, mentioning global AI companies like NVIDIA, Intel, Apple, and Qualcomm. He then discussed the role of Indian companies such as INOX CVA, KAYNES, and HCL in areas like pre-silicon validation, wafer thinning, and packaging. He provided a breakdown of contributions from entities like the Adani Group in wafer fabrication and the Hiranandani Group in testing and assembly.

Concluding the session, Mr. Trinath spoke about the classifications of PSUs as MAHARATNA, NAVARATNA, and MINIRATNA, their financial autonomy, and their contribution to industrial growth. He explained basic design concepts like VI characteristics, which form the foundation of semiconductor and circuit analysis.

The students engaged actively in the Question and Answer session, finding the talk insightful and motivational. Mr. Trinath's guidance left the attendees with a better understanding of how to align their academic efforts with career aspirations in core engineering and emerging technologies.
